**Subject:** Current number of wells outside AEs - Urgent

Hi Rob –

I just left you a voicemail. We have a press inquiry and we are looking for the DOGGR/WB current count of wells outside approved AEs. Here is what we have from a table handed to us at a meeting in Sacramento on 12/10/14:

532 wells permitted into non-hydrocarbon (HC) producing formations

2021 wells permitted into HC producing formations outside of HC producing pools granted exemption with Class II Primacy

A response today before 4pm would be helpful.

Thanks

Mike

Michael Montgomery
